RESEARCH HANDBOOK ON International Law and Cyberspace

Edited by **Nicholas Tsagourias** • **Russell Buchan**

RESEARCH HANDBOOKS IN INTERNATIONAL LAW

RESEARCH HANDBOOK ON INTERNATIONAL LAW AND CYBERSPACE

RESEARCH HANDBOOKS IN INTERNATIONAL LAW

This highly original series offers a unique appraisal of the state-of-the-art of research and thinking in international law. Taking a thematic approach, each volume, edited by a prominent expert, covers a specific aspect of international law or examines the international legal dimension of a particular strand of the law. A wide range of sub-disciplines in the spheres of both public and private law are considered; from international environmental law to international criminal law, from international economic law to the law of international organisations, and from international commercial law to international human rights law. The *Research Handbooks* comprise carefully commissioned chapters from leading academics as well as those with an emerging reputation. Taking a genuinely international approach to the law, and addressing current and sometimes controversial legal issues, as well as affording a clear substantive analysis of the law, these *Handbooks* are designed to inform as well as to contribute to current debates.

Equally useful as reference tools or introductions to specific topics, issues and debates, the *Handbooks* will be used by academic researchers, post-graduate students, practicing lawyers and lawyers in policy circles.

Titles in this series include:

Research Handbook on International Sports Law
Edited by James A.R. Nafziger and Stephen F. Ross

Research Handbook on International Conflict and Security Law
Jus Ad Bellum, Jus in Bello and Jus Post Bellum
Edited by Nigel D. White and Christian Henderson

Research Handbook on International Law and Migration
Edited by Vincent Chetail and Céline Bauloz

Research Handbook on International Energy Law
Edited by Kim Talus

Research Handbook on International Law and Terrorism
Edited by Ben Saul

Research Handbook on the Law Treaties
Edited by Christian J. Tams, Antonios Tzanakopoulos and Andreas Zimmermann

Handbook of Space Law
Edited by Frans G. von der Dunk

Research Handbook on International Law and Cyberspace
Edited by Nicholas Tsagourias and Russell Buchan

RESEARCH HANDBO
International La

This timely *Research Handb*
practitioners of various legal questions concerning cyberspace and cyber activities. Comprehensive and thorough, it succeeds in mapping out the range of international rules that apply to cyberspace and to specific cyber activities, assesses their regulatory efficacy and offers insightful suggestions, where necessary, for revised standards.

Contributors examine the application of fundamental international law principles to cyberspace such as the principle of sovereignty, jurisdiction, state responsibility, individual criminal responsibility, human rights and intellectual property rights. They explore the application of international rules to cyber terrorism, cyber espionage, cyber crime, cyber attacks and to cyber war. They deal with the meaning of cyber operations, the ethics of cyber operations as well as with cyber deterrence. Finally, they comment on the cyber security policies of international and regional institutions such as those of the United Nations, the European Union, NATO and of Asian-Pacific institutions.

This *Research Handbook* will benefit scholars in the fields of international law, international relations, public and private law. Researchers will find the suggested future research avenues in this field invaluable whilst policymakers and practitioners will gain fresh insights into topical issues concerning the regulation of cyberspace and of cyber activities.

Nicholas Tsagourias is Professor of International Law and **Russell Buchan** is Senior Lecturer in International Law at the University of Sheffield, UK.

With an introduction by Michael Schmitt.
